

I benefit from listening to XM Satellite radio and its traffic and weather channels. XM gives me variety and quality that is not available on am or fm radio. I pay for the services and it should not be up to the national association of broadcasters to dictate what I can hear on pay radio. Please reject the nabs petition 04-160 and support xms ability to provide the kind of programming that I have been used to.
Thank you,

Drew Muskin
